Response to Amendment

Applicant's amendment filed on November 9, 2006 has been received. Claims 1 and 4 are pending.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 4 is rejected under 35 U.S.C. 102(b) as being anticipated by Miner (U.S. 6,649,181). Miner discloses a cosmetic adhesive strip that is applied to the nose and is comprised of a holding member layer, which is deposited on a cosmetic material layer (Column 2, 11-22). The strip is designed to precisely fit against the nose of a wearer. Materials formed from combinations of cellulosic and thermoplastic fibers may be used, such as a hydrophilic polypropylene/rayon combination (Figure 1)(Column 4, 6-8). When a hydrophilic material is used, it is able to absorb moisture from the skin, which allows the cosmetic strip to adhere to the nose (Column 2, 55-57)..

Allowable Subject Matter

Claim 1 is allowed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ishida (U.S. 6,299,605) shows a pack for the nose. Klein (U.S. 5,682,607) shows a skin appliqué. Morikane (U.S. 6,206,902) shows a nose pack.
